

EMERGENCY MEDICAL TECHNICIAN COURSE

Dear Prospective EMT Student –

Thank you for your interest in the EMT Course. The Emergency Medical Technician (EMT) certification program is designed to train an individual to function independently in a medical emergency. The course provides the basic knowledge and skills needed to deliver Basic Life Support (BLS) care and is required to progress to more advanced levels of prehospital patient care.

The course requires a minimum of 154 hours of classroom and skills instruction and approximately 24 hours of Clinical/Field rotations. This course is designed to train individuals to serve as a vital link in the chain of the health care team. This includes all skills necessary to provide emergency medical care as an attendant-in-charge on a BLS ambulance.

Eligibility to attend an Emergency Medical Technician course in Virginia requires that you must:

- (1) Be proficient in reading, writing and speaking the English language.
- (2) Be a minimum of 16 years of age at the beginning date of the certification course. If less than 18 years of age, you must provide the course coordinator with a completed parental permission form with the signature of a parent or guardian verifying approval for enrollment in the course.
- (3) Have no physical or mental impairment that would render them unable to perform all cognitive and psychomotor skills required for that level of certification.
- (4) Hold current certification in an Office of Emergency Medical Services approved Cardiopulmonary Resuscitation (CPR) course at the beginning date of the course. This certification must also be current at the time of state testing.

Classes will be held at the Shannon Training Center located at 8711 Courthouse Road in Spotsylvania County. Classes will be held on Mondays, Wednesdays and some Saturdays (the schedule is below).

We will offer two CPR Courses on Saturday March 10th, 2018 starting at 08:30 AM or Monday March 5th and Wednesday March 7th at 06:00 PM. If you are unable to attend our dates, you can take a course from another source. The current courses which are accepted by the Virginia Office of EMS to meet these standards are:

- American Heart Association - Basic Cardiac Life Support - "Healthcare Provider"
- American Red Cross - "CPR/AED for the Professional Rescuer and Healthcare Provider" or CPR/AED for Lifeguards
- American Safety and Health Institute – "CPR-PRO"
- Emergency Care and Safety Institute "Professional Rescuer" / "Healthcare Provider CPR & AED"
- EMS Safety Services, Inc. – CPR/AED for Professional Rescuers (2/1/2014)

- Medic First Aid - BLS for Professionals "BLSPRO"
- National Safety Council – "Healthcare and Professional Rescuer"
- ProCPR – "Healthcare Provider"

The cost for the course is \$350. This includes textbook, CPR certification, student shirt, initial testing fees, and blood pressure cuff and stethoscope. This fee will be due on the first night of EMT class (12MAR18).

There will be an interview setup after your application is received. You will be contacted via e-mail.

Applications can be mailed to Kimberly Madison at 3801 Overview Drive Fredericksburg, VA 22408 or emailed to madisonkg@gmail.com. Anyone registering for this class must submit an application. If you should have any questions, please feel free to contact me, my contact information is below.
